Foreword

The section of the R. Cyril Lockett Collection now to be sold is his extensive group of Continental coins in gold, silver and billon.

With the exception of the Anglo-Gallic issues and Scandinavian pennies, Mr. Lockett's interest in Continental coins did not develop until late in his life. In fact, it was not until the sale of Lord Grantley's coins in 1943 to 1945 that he decided to build up this branch of his collection as a complement to the early pennies of this country to which he had devoted so much study.

He bought a large number of lots of silver and billon coins at this sale and many of the coins now offered still have Lord Grantley's tickets with them. Apart from isolated specimens, all coins in the collection are of the period before 1500.

While this part of Mr. Lockett's incomparable collection is not as important as his English and Greek series, nevertheless it includes some very desirable pieces, as reference to the eighteen plates will show. In addition to the fine series of Anglo-Gallic and French gold, the Scandinavian silver and the interesting series of coins of the Crusaders, special attention is drawn to the following: —

Lot 41 Richard II, half-hardi.

42 Henry V, salute.

43 Henry V, mouton d'or.

92 Frisian gold solidus, IXth century.

218 Louis XII, Duke of Milan, double ducat.

303 Henry V, gros of third issue.

PRICED CATALOGUES

of Coins

AFTER each sale these catalogues are issued with the prices realised printed in the margin opposite each lot, thus giving at a glance a reliable guide to values.

The final test of value must always be auction prices rather than the figures given in books of reference for changing times and fashions soon render the latter obsolete and misleading.

On the average we issue twelve Coin and Medal catalogues a year, some of which are usually of sales of important collections The **priced catalogues** are posted to subscribers as soon as ready, usually about a week after the date of sale and the subscription is . . . .
